

90th Meeting of the Acoustical Society of America, San Francisco, California, November 3 - 7.

- "Experimental Determination of the Raman-Nath Parameter Using Near- and Far-Optical Fields of an Ultrasonically Produced Optical Phase Grating," Michael E. Haran, Division of Electronic Products.

Regional Meeting of the Society for Experimental Biology and Medicine, San Antonio, Texas, November 7.

- "Potential Risks of Photodynamic Therapy," C. D. Lytle and L. E. Boekstahler, Division of Biological Effects.

The Congenital Anomalies Research Association of Japan and Japan Society of Human Genetics - Joint Conference, Tokyo, Japan, November 7 - 9. (~~Both presentations listed below~~ to be given by title only.)

- "Ultrasonically Induced Weight Reduction in Mice," W. D. O'Brien, Jr., University of Illinois, and M. E. Stratmeyer, Division of Biological Effects.
- "Microwave Teratogenesis in Mice," R. Rugh and W. M. Leach, Division of Biological Effects.

Seminar: "A Review of Mammographic Techniques," by Robert L. Egan, M.D., Chief of Section of Mammography, Emory University School of Medicine. To be presented November 11 at 1:30 p.m. in Room 416 at Bureau headquarters in Rockville.

IEEE Biomedical Engineering Symposium, Winston-Salem, North Carolina, November 11.

- "Recent Developments in Diagnostic Ultrasound Technology," Stephen W. Smith, Division of Electronic Products.

15th Annual Meeting of the American Society for Cell Biology, San Juan, Puerto Rico, November 11 - 14.

- "Mutagenesis of Cultured Mammalian Cells in Response to Ultraviolet Radiation or X Rays," Kenneth Krell, Robert O. Martin, and Katherine Selby, Division of Biological Effects.

Part Add 3

Add over

(over, also)
American Public Health Association Annual Conference, Chicago, Illinois, November 16 - 20.

- "The Need for Dose Reduction to Personnel During Radium/Radon Therapy," A. C. Tapert and D. L. Thompson, Division of Radioactive Materials and Nuclear Medicine.
- "Risk/Benefit Analysis for Radioactive Consumer Products," A. C. Tapert and P. Paras, Division of Radioactive Materials and Nuclear Medicine.
- "An Evaluation of Uranium in Dental Porcelain," D. L. Thompson, Division of Radioactive Materials and Nuclear Medicine.
- "Radiation Exposure to Personnel During Special Procedures X Ray," Charles Roessler, University of Florida, and William Properzio, Division of Training and Medical Applications.
- "Quality Assurance in Diagnostic Radiology," Mark Barnett and James S. Benson, Division of Training and Medical Applications.
- "Television Recall: The Solution to a Potential X-Ray Problem," Rodger L. Leupold, Division of Compliance.
- "Microwave Radiation: An Epidemiologic Assessment," Emanuel Landau, American Public Health Association, and Robert M. Albrecht, Division of Biological Effects.

26th Annual Session of the American Association for Laboratory Animal Science, Boston, Massachusetts, November 16 - 21.

- "Clinical Aspects of Spontaneous Cor Pulmonale in Young Beagles," R. D. Brewster and R. W. Thomassen, Collaborative Radiological Health Laboratory of Colorado State University, under contract with the Division of Biological Effects.
